Mission

Results, Technologies, Solutions (RTS) is a Results-Based Management consulting and IT development firm that provides results-based project management software, program evaluation software, and management consulting services. RTS is committed to delivering innovation. We specialize in developing custom online tools, survey instruments and decision systems that drive process improvements, achieve meaningful outcomes, and promote long-term success for our clients.

Company Profile

RTS was incorporated in the State of North Carolina in 2005 and is certified as a HUBZone business entity. RTS headquarters is located in the heart of downtown Raleigh, North Carolina, minutes away from the Research Triangle Park and three of the most prestigious universities in the region (NC State, UNC Chapel Hill, and Duke). RTS has prime access to some of the country's most talented IT professionals in the country. We offer a strong base of staff with quality experience in software development, social services, and management consultation.

Utilizing state-of-the-art methodologies for performance measurement, program evaluation, and program management, RTS produces user-friendly, robust and functional software, efficient information services consulting. We specialize in tools that support outcome-based evaluation and reporting. Whether developing a customized logic model for an organization or creating custom online surveys to deliver to program participants, we have the expertise to meet your needs.

CD of music. It is also supposed to be using the Microsoft Windows operating system on your computer. Along the way, this process of converting music files into a CD files into MP3 MP3 files is called Start, open the usestr unit of your computer and insert the music CD that contains the files you want to convert to MP3. Close the album door. If Windows Media Player are configured to be the default CD reproduction software of your computer, then Windows Media Player can open automatically and start reproducing the CD. If this does not happen, you will need to start Windows Media Player yourself by pressing the Windows + R key, writing "Wmpplayer," and by clicking OK. Select the clues for Rippingonome Media Player you are running, click on the "library boton" in the upper right corner. Now you will see a list of tracks (music files) that are in the CD. If you liked that Windows Media Player is automatically completed the information of the song, ensure that your computer is connected to the Internet. Doing this can save you a lot of time because it automatically fills information as the name of the song, the artist, the composer and more. You can use the verification boxes to select or cancel the selection of the songs you want to convert; This is ostile if you do not need the entire CD turned into MP3. Audio quality of this, but expects, before starting to convert your files, you need to select the correct RIP settings for the quality of the file and the audio. Press the "rip configuration" boton and choose "format" on the drop -down list. Of those options, choose "MP3". Next Press "Start Settings" again and choose the "Audio Quality". The higher the quality, the better the MP3 file converted, but it will occupy more disk space. Withdraw a CD and convert the files into MP3 can take several minutes. Once the process is completed, you can listen to your new MP3 files or transfer them to an MP3 player or a similar device. More of zev zev al ed satnugerp teN. satnugerp sal ed
