Crossword Clue Bang, As One's Toe Crossword Clue The Domestic Violence Response Team (DVRT) is a team of volunteers trained to assist victims of domestic violence. The primary purpose of the team is to offer emergency support, alternatives, and referrals to victims of domestic violence. DVRT members are screened by the West Orange Police Department and trained and qualified in domestic violence intervention. DVRT provides a neutral, less authoritarian atmosphere to victims who are traumatized, confused, uncertain, or reluctant to seek help. They are there to listen and to help. When the police bring a victim of Domestic Violence into headquarters, a DVRT member will be available to speak with the victim. For more information, contact (973) 325-4025 or email Criminal Investigation Unit. If you are in an emergency situation, call 9-1-1 immediately. Since DVRT is on call 24/7, a victim of domestic violence can go to police headquarters at anytime and request to speak to a DVRT member. DVRT members are available to answer victims' questions and listen to their concerns. Upon the victim's request, they can: Advise the victim of all options available as they pertain to their right to be safe Provide referrals for counseling options and support, drug and alcohol counseling, shelters, 24-hour hotline, and victim advocacy programs Explain the advantages of seeking a temporary restraining order (TRO) and explain the relief granted, including ordered counseling for the abuser and no contact order Explain the filing of criminal complaints and the requirement (in certain cases) that the police must file a criminal complaint, regardless of the victim's desires Explain the family court procedures, the aftermath of court proceedings, the importance of a safety plan, and steps the victim can take to minimize injury to the victim and the victim's children (if a TRO is granted) Arrange shelter for the victim and any minor children Should a victim choose to speak to a volunteer, this will be done in a private room at West Orange Police Headquarters. All discussions will remain confidential. This means that no written record of the conversation will be kept, and what is discussed stays between the victim and the DVRT member. An exception to this privilege arises under circumstances that involve suicide, homicide, the existence of weapons, or if there is reasonable belief that a child has been abused or neglected. In these situations, volunteers are legally obligated to report this information to a police officer for follow-up. The Community Emergency Response Team (CERT) program helps train people to be better prepared to respond to emergency situations in their communities. When emergencies happen, CERT members can give critical support to first responders, provide immediate assistance to victims, and organize spontaneous volunteers at a disaster site. CERT members can also help with non-emergency projects that help improve the safety of the community. CERT is a nationwide initiative. The events of September 11 will never be forgotten; also not forgotten is how the spirit of America was awakened that day and citizens came forth to volunteer their services. President George W. Bush harnessed this spirit of volunteerism with the Citizen Corps program. CERT is a part of the Citizen Corps Program. CERTs have been used to: Search for lost or kidnaped children Staff Emergency Operations Centers and monitor events Emergency Operations Center security; driving, information, assisting disabled visitors and minor first aid Manage "spontaneous/convergent" volunteers Assist Red Cross and other relief organizations on mass care INDEPENDENT PROSECUTOR DIRECTIVE In December 2019, the New Jersey Attorney General announced the "Excellence in Policing" Initiative to promote professionalism, accountability, and transparency in law enforcement. The initiative included new statewide policies regarding officer-involved shootings, internal affairs investigations, disclosure of exculpatory evidence, and other policing issues. Further information on the initiative may be found at: AG Directive 2019-4: Independent Prosecutor Directive was issued as part of the initiative. The Independent Prosecutor Directive outlines a 10-step process for conducting independent investigations of use-of-force and death-in-custody incidents in compliance with state law. The directive establishes clear procedures governing such investigations to ensure that they are done fully, fairly, and independently of any potential bias. This directive comprehensively addresses the process for conducting independent investigations of use-of-force and death-in-custody incidents, thereby consolidating three existing directives—AG Directive 2006-5, its 2015 supplement, and AG Directive 2018-1—alongside new procedures for compliance with the new independent prosecutor bill signed by Governor Murphy in January 2019. The new directive is organized around a "ten-step process," from the initial notifications of the incident to the announcement of criminal charges and any referral for administrative review. As part of this process, the directive formally transfers investigative and prosecutorial responsibility for fatal cases from the Division of Criminal Justice to the Attorney General's Office of Public Integrity and Accountability. Additionally, this directive expands the scope of the disclosure policies established in AG Directive 2018-1, creating a presumption in favor of publicly releasing any video footage that documents a serious use-of-force or death-in-custody incident covered by the new directive. The new disclosure rules include the release of any third-party footage captured by a surveillance camera or a civilian's smartphone and later obtained by law enforcement during the investigation. A summary of the 10-step process is available at: A full version of the Independent Prosecutor Directive is available at: PCPO SHOOTING RESPONSE TEAM Police officers may be required to respond to situations where they use their service firearm or other forms of physical force in response to threatened or actual attacks. If a police officer's response involves death or serious bodily injury, any use of deadly force (including the discharge of that officer's firearm), the death of a civilian during an encounter with a law enforcement officer, or the death of a civilian while in custody of law enforcement, the incident is investigated in compliance with State law and the New Jersey Attorney General's Independent Prosecutor Directive. When appropriate under the Independent Prosecutor Directive, the Passaic County Prosecutor's Office Shooting Response Team is tasked with conducting investigations to ascertain whether the force used was justified, legal and proper pursuant to established use of force guidelines. This team is comprised of dedicated, experienced investigative and legal staff who strive to conduct independent investigations fairly, expeditiously, thoroughly and impartially in accordance with governing State law and Attorney General Directives. The Shooting Response Team must balance the equally crucial goals of public transparency with the need to protect the integrity of the investigation in response to public or press inquiries relating to specific details while an investigation is active. In appropriate cases, the evidence is presented to the Grand Jury for a determination as to whether the conduct of the police officer should be the subject of criminal charges, or whether the police officer was justified in using deadly force. USE OF FORCE On June 2, 2020, Attorney General Gurbir S. Grewal outlined plans for revising New Jersey's "Use of Force Policy," which governs when a police officer in New Jersey may—and may not—use force against civilians. As part of that process, Attorney General Grewal announced that his office has launched an online portal for public comments and will be organizing community listening sessions in all 21 counties. The public comment portal, available at nj.gov/oag/force, will accept submissions through August 1, 2020. The portal allows residents to submit comments about any aspect of the Use of Force Policy, but specifically requests input on topics that will be discussed as part of the revision process, including: Specific tactics designed to subdue a subject (e.g., chokeholds, neck restraints, strikes to the head and face, use of police dogs); Engaging subjects with serious mental illness or substance abuse issues; Exhausting all other reasonable means (e.g., verbal warnings) and pursuing de-escalation before resorting to deadly force; Applying force proportionate to the subject's alleged conduct (e.g., limiting the use of force when the subject has committed a non-violent offense); Less-than-lethal uses of force (e.g., bean bag shots, rubber bullets, disabling netting); Duty to intervene when another officer engages in excessive use of force; Firing a weapon at a moving vehicle; High-speed car pursuits; Reporting and training requirements; and Any other proposals that reduce the risk of injury and death to civilians while maintaining the safety of police officers. The New Jersey's current Use of Force Policy is available at this link: Additionally, over the past several years law enforcement officers throughout Passaic County have received training in de-escalation, cultural awareness and implicit bias. Building on a longstanding history of crisis intervention training in Passaic County, the Paterson Police Department is also a pilot department in a statewide expansion of Crisis Intervention Team (CIT) training, which can help when officers respond to situations involving individuals with mental health issues. VIRTUAL TOWN HALLS Listening Session: Use of Force Policy (6-24-20) Event Description: "Join Attorney General Grewal for a discussion on New Jersey's existing Use of Force Policy and what changes have occurred in policing over the past 20 years. Learn how members of the public can weigh in on New Jersey's revision process. Together, we can create community-informed policing policies in our great state." (Recording of Event: Let's Talk About It: Building Police Community Trust Across New Jersey (6-3-20) Event Description: "Join Governor Phil Murphy and Attorney General Gurbir Grewal for a candid conversation on investigating officer involved shootings and other use-of-force incidents, strengthening trust between law enforcement officers and the communities they serve, and promoting a culture of professionalism, accountability, and transparency among New Jersey's law enforcement community." Recording of Event:
